Orgnazier:

China Chamber of Commerce for Import & Export of Medicines & Health Products

Services: Policy making, industry coordination, conference and training, exhibition services, registration and certification, market research, information reporting, etc.

Directly affiliated: Ministry of Commerce of China.

Website: www.cccmhpie.org.cn / www.cnmed.com.cn

Vice president, leader of this delegation

Chamber profile

Founded in May 1989, China Chamber of Commerce for Import & Export of Medicines & Health Products (CCCMHPIE) is the leading and most influential national trade association in China with a mission to promote the international trade and cooperation in medicinal and health products. CCCMHPIE, directly under the Ministry of Commerce of China, has a diverse membership of more than 2,400 companies including most of the major manufacturers and trading companies of pharmaceutical and health products across China. The fields that CCCMHPIE covers range from TCM, pharmaceuticals, preparations, medical devices and equipment, dressings, biopharmaceuticals, nutraceuticals, functional cosmetics to health products.

Currently, CCCMHPIE has a staff of 70-strong professionals, most of whom are specialists in international trade, medicine and management. It has also set up ten departments along product lines and functions, each responsible for supervising the import and export in its own line and offering guidance or advice to its members, or providing customized services for companies.

Since the beginning of the new millennium, China's foreign trade in medicines and health products has been expanding exponentially at an annual rate of over 20 percent. It has become the largest exporter of active pharmaceutical ingredients in the world. CCCMHPIE's significant contributions to this tremendous growth are well recognized, and this rapid trade expansion has in turn helped CCCMHPIE develop from strength to strength.

Tasly Holding Group Co., Ltd.

Main Business Scope: Modernized TCM, chemical and biological medicine, dietary supplement, and functional food.

Foreign Collaborations/JVs: Medicine, Chinese medicine trade in services.

Address: Tasly TCM Garden, No.2, Pujihe East Road, Beichen district, Tianjin, China.

Website: www.tasly.com

Company profile

Incorporated in 1994, Tasly Holding Group with 18,000 domestic and overseas employees in 2013 has been striving to be the leading brand in modernized TCM and promoting the growth of the Pan-health industry. The TCM giant, on the basis of its strong modernized TCM business, has expanded to biopharmaceutical, pharmaceutical chemical and distinctive medical service and formed its life protection division focused on pharmaceuticals; established industrial facilities in Tianjin, Jiangsu, Yunnan, Guizhou and Hunan. In 2013, sales amounted to CNY25.8 billion, up 34% over the previous year, and market value hit CNY48.5 billion. The past two decades have witnessed a quantum leap of Tasly.

In 2013 gross output of pharmaceutical chemicals hit CNY15.2 billion. Tasly's pharmaceutical chemical division increases by 25% on an annual basis in the past five years. Tasly aims to develop its chemical division gradually through the process of medical preparation, generic drug, high-end generic drug and proprietary drug, establishing its products in China, and introducing them to the world and conducting extensive and in-depth cooperation with transnational pharmaceutical giants in respect of R&D and marketing.

Summary of Tasly's pharmaceutical chemical industry:

1. Tasly's domestic sales of chemical products which are all medical preparations hit CNY15.2 billion (about USD2.45 billion) in 2013, which ranks 7th in the Chinese market.

2. In respect of distribution channel, Tasly's wholly-owned pharmacy chain Tasly Pharmacy has more than 600 outlets.

3. Over 5,000 salespersons work full-time for Tasly.

4. Products are distributed to a large number of hospitals, pharmacies and clinics. Sales increase 25%-30% per annum.

5. One of the two chemical drug makers affiliated to Tasly has been GMP-certified by the EU (tablet and capsule) and is cooperating with the Europe-based Alliance Boots. This shows that the enterprise

has reached the international level in product quality.

Address: 7th, 26th Floor, Fortune Tower, No.4 Huixin Dongjie, Chaoyang Dist. Beijing China.

Website: www.sino-pharm.com

Company profile

Established in 1981, China National Pharmaceutical Foreign Trade Corporation (SINOPHARM FOREIGN TRADE) is a wholly-owned subsidiary of the largest Chinese Pharmaceutical enterprise -China National Pharmaceutical Group Corporation (SINOPHARM Group). By the end of 2010, China Sinopharm International Corporation was formed on the basis of SINOPHARM FOREIGN TRADE together with CTPFTC as an important step forward for SINOPHARM Group's strategic implementation. SINOPHARM FOREIGN TRADE's major business covers domestic and overseas medical industrial investment and international trade of pharmaceutical products. It has introduced and distributed a great number of foreign medical products into Chinese market meanwhile continuously constructing the domestic export bases to ensure a sustaining exportation of Chinese pharmaceuticals. The company also provides other value added services including information consultation and public bonded warehouse businesses.

Main Business Scope: New drug research, drug manufacturing, market sale and international trade.

Address: No.6 Middle Hongda Road, Beijing Economic & Technological Development Area, Beijing, China.

Website: www.youcareyk.com

Company profile

Youcare Pharmaceutical Group was founded in 1988, and set up its manufacturing factories and headquarters at Beijing Economic-Technological Development Area in 2001. It is a multiple-medical and pharmaceutical enterprise integrated with new drug research, drug manufacturing and market sale. Since its foundation, by always focusing on manufacturing of best products, capacity ramp-up and completion of industrial chains, the Group has set up a raw materials base in Anhui and 4 major special preparation bases in Beijing, Shanghai, Guangzhou and Chongqing. During 2008 to 2012, the Group was listed among TOP 100 Chinese Pharmaceutical & Industrial Enterprises every year and jumped to 40th place as one of TOP 10 Pharmaceutical Enterprise in R&D in 2012. In the same year, the Group was also successively selected as the first-batch 10-billion enterprise with key cultivation by the State in Zhongguancun 1-billion, 10-billion and 100-billion Project and as the first-batch G20 sized enterprise in Beijing Bio-pharmaceutical Industry Leaping Development Project, and also identified by the Ministry of Science and Technology as the key high-tech enterprise of National Torch Plan. For years, Youcare Group has always been named Chinese Potential Enterprise on Forbes, U.S.

The innovation is Youcare's development strategy and responsibility. The Group imitates the generic drugs and creates new drugs, incessantly developing good drugs for people's health. At present, its products have covered many fields such as antibiotic, digestive system, cardio-cerebrovascular disease, anti-tumor, regulation of the immune system, antiviral, and glucokinase, as well as such preparation types as vial injection, freeze-dried powder injection, tablet, capsule, granule, suppository, paste and gel, etc. Among the above mentioned products, cephalosporin powder injection preparation series and digestive pellet sustained release preparation series have the leading production and sales volumes on the national market for years.

Youcare not only focuses on the domestic market, but also aims at the international market. For now, the Group has more than 70 regulatory products registered and sold at over 40 countries and regions, such as Russia, Pakistan, Africa and Latin America, etc. In 2011, the production lines of Youcare solid tablets and capsules were certified by EU GMP, and the certified products representative of omeprazole enteric capsule entered the German market, which both laid the foundation for expanding the European and American markets.
